- This policy applies to the eligible software only products listed in Schedule A attached hereto.
- Software products must be properly licensed and unmodified.

- During the software maintenance term identified in Schedule A, Dolby will provide customers of eligible products with software updates, fixes, security alerts, critical patch updates, upgrade scripts, general maintenance releases and documentation updates (collectively, "Software Updates") when such Software Updates are made generally available for products under a current maintenance plan. If the product is not on Schedule A, the software maintenance term is 3 years if applicable.
- All Software Updates are delivered by electronic download, and customers are responsible for downloading and installing all such Software Updates.
