

Dolby Vision Standard Support Terms

Dolby Laboratories provides technical support for Licensees of its technologies packaged in the form of development kits for integration into consumer products.

The terms here apply to the following Technologies: Dolby® Vision Consumer Decoder for Sink, Source and other devices.

Unless otherwise specified for the Technology License set forth in the System License Agreement (the "Agreement"), provided that Licensee has satisfied its Initial Fee obligations in the Agreement and met the Licensee Responsibilities described below, Licensor will use reasonable commercial efforts to provide the following technical support for all Base Models as that term is defined below (hereafter collectively "Dolby Vision Standard Support"), in English via telephone and email during Licensor's normal business hours, as long as the Technology License has not expired or been terminated.

- **Deliverable Overview:** One technical overview discussion at Licensee's facility regarding the Deliverables to explain the contents of the development kit, use of included testing and tuning tools, and requirements for developing Licensed Products.
- **Technical Q&A:** Address Licensee's technical questions on implementing or integrating the Deliverables according to their specifications and meeting applicable evaluation and tuning requirements, including use of applicable APIs, sample code, documentation, and testing and tuning tools and methods.
- **Errors:** Respond to reproducible problems with the Deliverables that prevent substantial conformance to the specifications ("Errors").
- **Picture Quality (PQ) Tuning Assistance:** As applicable, Device picture quality tuning expertise to assist Licensee to perform PQ Tuning for each Base Model and Base Model Lite.
- **Evaluation and Verification Submissions:**
 - For Licensed Products that can be self-tested, Licensor will provide one evaluation report for each complete "Self-Test Evaluation Submission" that Licensee provides to Licensor according to the Deliverables. If a product fails, Licensor will identify the failing requirement(s) for Licensee to remedy and will further conduct and provide an additional evaluation report after Licensee's complete and correct re-submission.
 - For Licensed Products that are not self-testable, Licensor will test any Licensed Product prototypes submitted by Licensee and provide one evaluation report for each complete "Licensing Evaluation Submission" that Licensee provides to Licensor according to the Deliverables. If a product fails, Licensor will identify the failing requirement(s) for Licensee to remedy and will conduct a retest and provide an additional evaluation report after Licensee's complete and correct re-submission.
 - **PQ Verification:** As applicable, Licensor will verify that Licensee's PQ Tuning parameter presets and panel measurements submitted with Evaluation Submissions meet the PQ quality requirements according to the Deliverables. If a product fails, Licensor will identify the failing requirement(s) for Licensee to remedy and will conduct a retest and provide an additional evaluation report after Licensee's complete and correct re-submission.
 - Licensed Products failing to meet the requirements upon retest may be subject to a testing fee for any further retesting, evaluation or verification.
- **Licensed Product Registration Q&A:** Address Licensee's questions on how to use Licensor's product registration portal to register Licensed Products.

Licensee Responsibilities

All Dolby Vision Standard Support is contingent on Licensee's compliance with the following:

- Licensee will request and schedule the Deliverable Overview (as described above) before Licensee's commercial shipment of a Licensed Product with the Technology.
- Licensee will integrate the Technology into Licensed Products according to the requirements and specifications in the Deliverables.
- Licensee will demonstrate to Licensor any Errors that Licensor has not been able to independently reproduce.
- As applicable, Licensee will perform PQ Tuning to tune Licensed Products to meet Licensor's requirements according to the Deliverables before submitting the Licensed Product for evaluation, which will occur before commercial shipment.
- As set forth in the Technology License and above, Licensee will provide Licensor with complete Evaluation Submissions, including all data required by the Deliverables and a fully functional Licensed Product prototype.
- Licensee will register each of its Licensed Products on Licensor's product registration portal, subject to the terms herein, before commercial shipment.
- Should Licensee need technical assistance beyond Dolby Vision Standard Support to meet its integration, tuning, evaluation, or verification responsibilities, Licensee may purchase services separately from Licensor. Licensor shall not be obligated to provide technical assistance to Licensee beyond Dolby Vision Standard Support until Licensee provides a Purchase Order for such assistance, as applicable.

Definitions

- "Base Model" means a specific model of a Licensed Product that is submitted to Licensor as being representative of a design or product family and with a single panel supplier. A registered and approved Base Model can support registration and approval of any number of multiple listings. Multiple listings are Licensed Products that are substantively similar to the Base Model, built over the same Implementation as its Base Model and with the same topology and panel supplier.
- "Base Model Lite" means a fully approved Dolby Vision Sink Device Base Model with the same panel type and substantially similar hardware and software components. A Base Model Lite requires PQ Tuning and PQ Verification and may require additional Technology Evaluation depending on its configuration. A registered and approved Base Model Lite can support registration and approval of any number of multiple listings
- "PQ Tuning " means the process of determining the panel-specific parameter presets that configure the Dolby Vision Technology for the optimum viewing experience.

Warranty and Disclaimer

Licensor will provide Dolby Vision Standard Support in a professional manner in accordance with generally accepted industry standards. Licensor's sole liability and Licensee's sole remedy for Licensor's breach of this warranty is for Licensor to re-perform the Dolby Vision Standard Support. EXCEPT AS SET FORTH HEREIN, LICENSOR MAKES NO WARRANTIES ABOUT THE DOLBY VISION STANDARD SUPPORT, DELIVERABLES (INCLUDING UPDATES) OR ANY PART THEREOF, AND HEREBY DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR NON-INFRINGEMENT.

Ownership

Any corrections, additions, or modifications to the Deliverables delivered hereunder, including without limitation any Updates, will be deemed part of the Deliverables and subject to all of the provisions of the Agreement.

Capitalized terms not defined herein are as defined in the Deliverables or the Agreement.
